PROJECTS

JUNIOR FRONTEND ENGINEER AT APPSOL360

I interned at this company for three months before being hired as a Junior Frontend Engineer. I worked on industrial projects, including real-time websites, a WhatsApp chatbot, and a Chrome extension. I built the WhatsApp chatbot and AI assistant from scratch and handled live production bugs.

WEB DEVELOPER AT ITS IT GROUP

Worked on a MERN stack application, developing both the frontend and backend. The repository is private on GitHub.

FULL STACK WEB DEVELOPER AT ORIXITY
